CLEANROOM FACILITIES / MAINTENANCE TECH (ENTRY-MID) | SAFETY/COMPLIANCE | GDP DOCUMENTATION

PROFILE

Hands-on controlled-environment professional transitioning into Delaware biopharma with 5+ years in bio-remediation and regulated work practices plus lead-abatement supervisor credentialing. Strong fit for cleanroom/lab support through disciplined PPE/containment execution, LOTO mindset, filter changes, and audit-ready documentation. BioConnect training exposure includes GMP fundamentals, cleanroom behavior, contamination control, and data integrity principles (ALCOA+). Seeking day-shift roles supporting cleanroom manufacturing and laboratory operations (end-of-shift by 6pm).

TECHNICAL TRAINING & PROFESSIONAL SKILLS

- **Facilities Support:** Filter changes, basic PM support, safe work execution, closeout readiness
- **Safety & Compliance:** OSHA 10, BBP protocol discipline, PPE, hazard controls, regulated disposal workflows
- **Controlled Environments:** Contamination control, containment discipline, decon workflow mindset
- **Documentation:** SOP adherence, logbooks, GDP documentation, traceability/data integrity mindset
- **Sampling Familiarity:** Sampling pump/ cassettes; procedure-driven handling and records
- **Leadership:** Directed crews up to 4 people; tasking, quality verification, customer-ready closeout

CERTIFICATIONS (ACCESS TRAINING SERVICES)

- Dust Sampling Technician (Initial) — Cert # **D-i-18846-25-00079**
 - Renovator (Initial) — Cert # **R-1-18846-25-00101**
 - Mold/Microbial Worker — Cert # **ACC-0825-31-009**
 - OSHA 10-Hour Construction Industry Outreach Program
 - OSHA 29 CFR 1926.62 — Lead Exposure in Construction (Interim Final Rule)
 - NJ Lead Abatement Supervisor (Housing & Public Buildings)
-

EDUCATION

BioManufacturing — BioConnect DE, Newark, DE

Feb. 2026

Certificate of Completion

Training exposure: GMP fundamentals, cleanroom behavior/gowning principles, contamination control, data integrity (ALCOA+)

MBA StreetWise Program — Interise + Black Chamber of Commerce, Wilmington, DE

WORK EXPERIENCE

Owner / Bio-Remediation Technician — Wilmington, DE & Tri-State Region

Jun. 2019 – Present

Contract & Private Projects

- Deliver bio-remediation services in occupied and sensitive environments using strict containment, PPE discipline, and contamination-control methods to prevent cross-contamination.
- Execute procedure-driven work from written protocols (SOP-style instructions) and maintain complete job logs and closeout documentation with GDP-level attention to accuracy and traceability.
- Apply safe work practices consistent with LOTO principles when working around energized equipment/controlled areas; maintain safety-first sequencing and verification.
- Lead and coordinate up to 4 personnel on active jobs: work assignment, quality checks, safety reinforcement,

and closeout readiness.

- Support cleaning within healthcare facilities, maintaining high hygiene standards, infection-control awareness, and safe chemical/PPE use.

Lead Abatement Supervisor Track (Training / Credentialing) — Wilmington, DE / NJ

2025 – 2026

- Apply regulated work controls and documentation discipline aligned with OSHA lead exposure requirements and controlled work practices.
- Reinforce containment integrity and PPE compliance to support compliant, audit-ready execution.

SELECTED PROJECTS (HIGH-SENSITIVITY BIO-REMEDIATION)

- **Philadelphia, PA (2019):** Completed an unattended-death remediation in a residential unit using BBP controls, PPE discipline, controlled cleanup, and compliant packaging/transport/disposal.
- **Philadelphia, PA (2022):** Performed vehicle bio-remediation with compartment disassembly and controlled treatment (including ozone use) to support restoration goals; maintained strict BBP practices.
- **Wilmington, DE (2024):** Remediated an occupied boarding-house incident involving multi-surface impact and migration; executed containment, decon workflow, and compliant waste handling (video available upon request)

TOOLS & METHODS

- Spill kits
- Biohazard bags
- Regulated waste packaging/labeling
- PPE selection and enforcement
- Sampling pump and cassettes
- Procedure-driven collection and documentation practices
- Hand tools (scrapers, specialized brushes)
- Bio-enzymatic cleaners
- Ozone generator use (controlled treatment)
